WT 11-65: In the Matter of applications of AT&T Inc. and Deutsche Telekom AG for consent to assign or Transfer Control of licenses and Authorizations

Dear Chairman Genachowski and Commissioners:

In an effort to create a stronger national network between Hispanics and businesses, we are constantly working to support and expand opportunities in the community, and in all of California. We also work to encourage mutually beneficial ties with the public and private sectors; to serve as an active and visible advocate in the Hispanic business arena; and to promote trade business community and our Latin American counterparts. Considering the role we play in California, we feel that every aspect of our mission is affected by the availability of a mobile broadband network in our community.

Our strategy revolves around being a "learning organization" that leverages innovative, visionary thinking. One that embraces transformational change that allows us to foresee economic trends, so that we are able to take advantage of opportunities and maneuver quickly. Having access to the stronger broadband network that the AT&T-T-Mobile merger provides would allow us to develop and modify our programs and services to better fit the needs of our members businesses.

The AT&T-T-Mobile merger will create opportunities for the state of California that would not otherwise exist. The mobile broadband coverage our community is currently receiving will only be improved, allowing California to further thrive as a state that provides a great place for families and businesses.

As an organization working towards bringing people together in California, the Latin Business Association hopes that you will support this merger, given how important the AT&T-T-Mobile merger is to our community and the nation.

Sincerely,

Ruben Guerra
Latin Business Association, Chairman of the Board

CC:
Chairman Julius Genachowski
Commissioner Meredith Attwell Baker
Commissioner Mignon Clyburn
Commissioner Michael Copps
Commissioner Robert McDowell
